1.2 STUDENT ACADEMIC ACHIEVEMENT AND PARTICIPATION IN STATE ASSESSMENTS

This section collects data on student academic achievement and participation in the State assessments.

Note: States are not required to report these data by the racial/ethnic groups shown in the table below; instead, they are required to report these data by the major racial and ethnic groups that align with their accountability system.

1.2.1 Academic Achievement and Participation in Mathematics Assessment

In the table below, provide information on the achievement and participation of students on the mathematics assessments required under Section 1111(b)(2) of the *ESEA* by reporting on: the number of students enrolled during the State's testing window, the number of students who participated in the mathematics assessment, the number of students who took the mathematics assessment and received a valid score, and the number of students who scored at or above proficient. The percentage of students who participated in the assessment and the percentage of students scoring at or above proficient will be calculated automatically.

The student group "children with disabilities (*IDEA*)" includes children with disabilities, as defined under the *Individuals with Disabilities Education Act* (*IDEA*), who participated in the regular assessments with or without accommodations and alternate assessments. Do not include former children with disabilities (*IDEA*). Do not include students only covered under Section 504 of the *Rehabilitation Act of 1973*.

The student group "English learners" should include recently arrived students who are identified as English Learners (ELs) and who have attended schools in the U.S. for less than 12 months. Do not include former ELs (i.e., those who exited EL status prior to the testing window within the past four years).

This table is repeated for each of grades three through eight and once for high school.

1.2.3 Academic Achievement and Participation in Science Assessment

In the table below, provide information on the achievement and participation of students on the science assessments required under Section 1111(b)(2) of the *ESEA* by reporting on: the number of students enrolled during the State's testing window, the number of students who participated in the science assessment, the number of students who took the science assessment and received a valid score, and the number of students who scored at or above proficient. The percentage of students who were tested and the percentage of students scoring at or above proficient will be calculated automatically.

This table is repeated for each of grades three through eight and once for high school.

1.2.4 Assessment Participation by Assessment Type for Children with Disabilities

This section collects information on children with disabilities' participation in the mathematics, reading/language arts, and science assessments.

1.2.4.1 Participation of Children with Disabilities (IDEA) in Mathematics Assessment

In the table below, provide the number of children with disabilities (*IDEA*) participating during the State's testing window in mathematics assessments required under Section 1111(b)(2) of the *ESEA* by the type of assessment. The percentage of children with disabilities (*IDEA*) who participated in the mathematics assessment for each assessment option will be calculated automatically. The total number of children with disabilities (*IDEA*) participating will also be calculated automatically.

The data provided below should include mathematics participation data from all children with disabilities (*IDEA*) as defined under the *IDEA*. Do not include students only covered under Section 504 of the *Rehabilitation Act of 1973*.

| Type of Assessment | # Children with Disabilities (<i>IDEA</i>) Participating | Percentage of Children with Disabilities (<i>IDEA</i>) Participating, Who Took the Specified Assessment |

1.2.6 Grants for State Assessments and Related Activities**1.2.6.1 Grants for State Assessments and Related Activities**

This section requests information on your State's use of funds under Section 1201 of *ESEA*.

1.2.6.1.1 Percentages of Funds Used for Standards and Assessment Development and Other Purposes

For funds your State had available under Section 1201 of the *ESEA* (Grants for State Assessments and Related Activities) during SY2018-19, estimate what percentage of the funds your State used for the following (round to the nearest ten percent).

| Purpose | Percentage (rounded to the nearest ten percent) |
|--|--|
| To pay the costs of the development of the State assessments and standards required by Section 1111(b) of the <i>ESEA</i> | 20.00% |
| To administer assessments required by Section 1111(b) of the <i>ESEA</i> or to carry out other activities described in Section 1201 of the <i>ESEA</i> | 80.00% |

Comments: The response is limited to 4,000 characters.

It is challenging within the current invoicing to determine the actual amount of funds utilized solely for the development of the state assessments. For the most part, within the contract, the reporting of data, evaluation of said data and equating that is completed, impacts the development and administration of future assessment items. They are all inextricably linked. Last year, we reported a 10/90 split, however, when reviewing the work completed, the review of items, IRC, etc. over the last contract period, this may be closer to a more accurate figure rounded to the nearest 10%.

1.2.6.1.2 Uses of Funds for Purposes Other than Standards and Assessment Development

For funds your State had available under Section 1201 of the *ESEA* (Grants for State Assessments and Related Activities) during SY2018-19 that were used for purposes other than the costs of the development of the State assessments and standards required by Section 1111(b) of the *ESEA*, for what purposes did your State use the funds? (Enter "yes" for all that apply and "no" for all that do not apply).

| Developing challenging State academic standards and aligned assessments in academic subjects for which standards and assessments are not required under Section 1111(b) of the <i>ESEA</i> . | NO |
| Developing or improving assessments of ELs, including assessments of ELP as required under Section 1111(b)(2)(G) of the <i>ESEA</i> and academic assessments in languages other than English to meet the State's obligations under Section 1111(b)(2)(F) of the <i>ESEA</i> . | NO |

1.3.4 Poverty Quartile Breaks

In the table below, provide the poverty quartiles breaks used in determining high- and low-poverty schools and the poverty metric used to determine the poverty quartiles.

| | High-Poverty Schools (more than what %) | Low-Poverty Schools (less than what %) |
|-------------|--|---|
| All schools | 59.00% | 31.00% |

| | |
|---------------------|-----------------------------------|
| Poverty metric used | economically disadvantaged status |
|---------------------|-----------------------------------|

FAQ:

How are the poverty quartiles determined? Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

The SEA uses the following rationale for this determination:

>=59% High Poverty

<=31% Low Poverty

- 3. 3114(d) Subgrants:** Number of subgrants made in the State under Section 3114(d) of the *ESEA*, with funds reserved for immigrant children and youth. 1.4.8 State Subgrant Activities

This section collects data on State subgrant activities.

1.4.8.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from the U.S. Department of Education (ED), normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be submitted using the MM/DD/YY format.

Example: State received SY2018-19 funds July 1, 2018, and then made these funds available to subgrantees on August 1, 2018, for SY2018-19 programs. Then the "# of days/\$\$ Distribution" is 30 days.

| Date State Received Allocation | Date Funds Available to Subgrantees | # of Days/\$\$ Distribution |
|--------------------------------|-------------------------------------|-----------------------------|
| 7/1/2018 | 8/1/2018 | 30 |

Table 1.4.8.1 Definitions:

- Date State Received Allocation** = Date the State receives the Title III allocation from ED.
- Date Funds Available to Subgrantees** = Date that Title III funds are available to approved subgrantees.
- # of Days/\$\$ Distribution** = Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.

Comments: The response is limited to 4,000 characters.

Although the SEA receives the award as of July 1, applications for funds are received on August 1. Districts are able to apply for pre-award costs where applicable and therefore may be able to access the funds in a shorter period of time.

1.4.8.2 Steps to Shorten the Distribution of Title III Funds to Subgrantees

In the comment box below, describe how your State can shorten the process of distributing Title III funds to subgrantees.

The response is limited to 8,000 characters.

It takes 30 days to distribute the funds to the subgrantee because a data set is used to determine the district who will receive this funding. This data set is analyzed and verified before awarding the to the subgrantee. The subgrantee has the ability to apply for pre-award costs and therefore these funds could be made available sooner if required.

1.4.9 Title III Subgrantees

This section collects data on the performance of Title III subgrantees.

1.4.9.1 Termination of Title III Language Instruction Educational Programs

This section collects data on the termination of Title III programs or activities as required by Section 3122(b)(7) of the *ESEA*.

| Termination of Title III Programs | Yes / No |
|--|-----------------|
| Were any Title III language instruction educational programs <u>or</u> activities terminated for failure to reach program goals? | NO |
