1.2 STUDENT ACADEMIC ACHIEVEMENT AND PARTICIPATION IN STATE ASSESSMENTS

This section collects data on student academic achievement and participation in the State assessments.

Note: States are not required to report these data by the racial/ethnic groups shown in the table below; instead, they are required to report these data by the major racial and ethnic groups that align with their accountability system.

1.2.1 Academic Achievement and Participation in Mathematics Assessment

In the table below, provide information on the achievement and participation of students on the mathematics assessments required under Section 1111(b)(2) of the *ESEA* by reporting on: the number of students enrolled during the State's testing window, the number of students who participated in the mathematics assessment, the number of students who took the mathematics assessment and received a valid score, and the number of students who scored at or above proficient. The percentage of students who participated in the assessment and the percentage of students scoring at or above proficient will be calculated automatically.

The student group "children with disabilities (*IDEA*)" includes children with disabilities, as defined under the *Individuals with Disabilities Education Act* (*IDEA*), who participated in the regular assessments with or without accommodations and alternate assessments. Do not include former children with disabilities (*IDEA*). Do not include students only covered under Section 504 of the *Rehabilitation Act of 1973*.

The student group "English learners" should include recently arrived students who are identified as English Learners (ELs) and who have attended schools in the U.S. for less than 12 months. Do not include former ELs (i.e., those who exited EL status prior to the testing window within the past four years).

This table is repeated for each of grades three through eight and once for high school.

1.2.2 Academic Achievement and Participation in Reading/Language Arts Assessment

In the table below, provide information on the achievement and participation of students on the reading/language arts assessments required under Section 1111(b)(2) of the *ESEA* by reporting on: the number of students enrolled during the State's testing window, the number of students who participated in the reading/language arts assessment, the number of students who took the reading/language arts assessment and received a valid score, and the number of students who scored at or above proficient. The percentage of students who were tested and the percentage of students scoring at or above proficient will be calculated automatically.

The student group "children with disabilities (*IDEA*)" includes children who participated in the regular assessments with or without accommodations and alternate assessments. Do not include former children with disabilities (*IDEA*). Do not include students only covered under Section 504 of the *Rehabilitation Act of 1973*.

The student group "English learners" does not include recently arrived students who have attended schools in the United States for fewer than 12 months and who took an assessment of English language proficiency (ELP) in lieu of the State's reading/language arts assessment. Do not include former ELs.

This table is repeated for each of grades three through eight and once for high school.

1.3.1 Inexperienced Teachers

In the table below, provide information on the experience of teachers by poverty quartile and level.

School Poverty Level	Total # (FTE) Teachers	# (FTE) Inexperienced Teachers	Percentage Inexperienced Teachers
High-poverty schools	10,998.60	2,301.88	20.93%

1.3.2 Teachers Teaching with Emergency or Provisional Credentials

In the table below, provide information on the credentials of teachers by poverty quartile and level.

School Poverty Level	Total # (FTE) Teachers	# (FTE) Teachers teaching with emergency or provisional credentials	Percentage Teachers teaching with emergency or provisional credentials
High-poverty schools	10,998.60	89.56	0.81%
Low-poverty schools	17,891.28	106.90	0.60%

Total schools	56,242.81	3,382.47	

Comments: The response is limited to 4,000 characters.

1.3.4 Poverty Quartile Breaks

In the table below, provide the poverty quartiles breaks used in determining high- and low-poverty schools and the poverty metric used to determine the poverty quartiles.

	High-Poverty Schools (more than what %)	Low-Poverty Schools (less than what %)
All schools	59.00%	25.00%

Poverty metric used	Percentage of students eligible for free or reduced-price meals
---------------------	---

FAQ:

How are the poverty quartiles determined? Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

In the table below, provide the October 1 count of ALL ELs in the State who meet the EL definition under Section 8101(21) of the *ESEA*.

- Include newly enrolled (recent arrivals to the U.S.) and continually enrolled ELs, whether or not they receive services in a Title III LIEP.
- Do not include students previously identified as ELs (as described in Section 1111(b)(3)(B) of the *ESEA*) or students who exit LIEPs based on attainment of ELP (as described in Section 3121(a)(4) of the *ESEA*) in the ALL EL student count in this table.

1.4.2 LIEPs

Note: Section 3201(7) – The term ‘LIEP’ means an instruction course – (A) in which an EL is placed for the purpose of developing and attaining English proficiency, while meeting challenging State academic standards; and (B) that may make instructional use of both English and a child’s native language to enable the child to develop and attain English proficiency and may include the participation of English proficient children if such course is designed to enable all participating children to become proficient in English and a second language.

In the table below, identify the language of instruction (other than English) next to each type of LIEP implemented in the State, as defined under Section 3201(7), as required by Sections 3121(a)(1) and 3122(b)(1) of the *ESEA*.

LIEPs	Language of instruction (if applicable)	Number of ELs Enrolled
Transitional Bilingual	Spanish	147
Dual Language or Two-way Immersion	Spanish, Hmong, German, Chinese, Russian, Korean, French	4,526
English as Second language (ESL) or English Language Development (ELD)	English	45,980
Content Classes with integrated ESL support	NA	15,414
Newcomer programs	English	2,354
Other	English for all of the following: Sheltered instruction, Co-Teaching Integrated Model SLIFE, Summer school	565

Explain in the comment box below if the State has any additional LIEPs that are not captured in the table above.

The response is limited to 8,000 characters.

Minnesota was unable to capture all district’s LIEP. A few districts were not able to complete the on-line survey which captures the information in the table above. However, as the data above supports, the majority of the districts in the state either use ESL (ELD) or Content Classes with integrated ESL support. Districts are required to conduct comprehensive needs assessment to determine the type of LIEP that would benefit their district based upon the needs of the district. The needs assessment includes reviewing staffing availability, number and grade placements of ELs, and home languages of the EL students. Over the past two years, the number of districts conducting newcomer programs has declined.

1.4.3 Most Commonly Spoken Languages in the State

In the table below, provide the five most commonly spoken languages, other than English, in the State (for all ELs, not just ELs enrolled in LEAs that received Title III services). The top five languages should be determined by the highest number of ELs speaking each of the languages listed. Report additional languages with significant numbers of ELs in the comment section.

Language	# ELs
Spanish; Castilian	27,543
Somali	17,013
Hmong	10,403

Arabic	1,536

The response is limited to 8,000 characters.

Minnesota also reported in 2018-2019 large number of students whose first language is Arabic (3179 students), Mandarin Chinese (2526 students), Russian (2494 students), Oromo (2472 speakers), and Amharic (1849 speakers).

Number of teachers serving in LIEPs (including core content (reading, math, science and social studies) in LEAs receiving Title III funds	Number of certified, licensed or endorsed teachers serving in LIEP in LEAs receiving Title III funds	How many ESL/bilingual education endorsed teachers will be needed for the succeeding 5 fiscal years.*
1,737	1,699	500

*This number should be the total additional teachers needed for the next 5 years, not the number needed for each year. Do not include the number of teachers currently working in Title III English language instruction educational programs.

Comments: The response is limited to 4,000 characters.

The state of Minnesota continues to have a shortage of teachers licensed to serve English learners. In 2018-2019 over 100 equivalent FTE ESL positions were filled by variances. This shortage is expected to continue.
