## 1.2 STUDENT ACADEMIC ACHIEVEMENT AND PARTICIPATION IN STATE ASSESSMENTS

This section collects data on student academic achievement and participation in the State assessments.

**Note:** States are not required to report these data by the racial/ethnic groups shown in the table below; instead, they are required to report these data by the major racial and ethnic groups that align with their accountability system.

### 1.2.1 Academic Achievement and Participation in Mathematics Assessment

In the table below, provide information on the achievement and participation of students on the mathematics assessments required under Section 1111(b)(2) of the *ESEA* by reporting on: the number of students enrolled during the State's testing window, the number of students who participated in the mathematics assessment, the number of students who took the mathematics assessment and received a valid score, and the number of students who scored at or above proficient. The percentage of students who participated in the assessment and the percentage of students scoring at or above proficient will be calculated automatically.

The student group "children with disabilities (*IDEA*)" includes children with disabilities, as defined under the *Individuals with Disabilities Education Act* (*IDEA*), who participated in the regular assessments with or without accommodations and alternate assessments. Do not include former children with disabilities (*IDEA*). Do not include students only covered under Section 504 of the *Rehabilitation Act of 1973*.

The student group "English learners" should include recently arrived students who are identified as English Learners (ELs) and who have attended schools in the U.S. for less than 12 months. Do not include former ELs (i.e., those who exited EL status prior to the testing window within the past four years).

This table is repeated for each of grades three through eight and once for high school.

For the academic year of 2018-2019, the language proficiency files of the Spanish Learner's Program (since in Puerto Rico, Spanish is the main instructional language) were not submitted because the PRDE was unable to administer the assessment. USDE T-III program was notified (this was notified through the PRDE Letter of Notification- Screener and Annual Assessment). For the current year, a vendor was selected through an RFP process and contracted accordingly. Thus, the annual assessment administration is in progress. At the present due to the coronavirus, we are social distancing, so it is difficult for us to project if we would be able to complete the test administrations during the 2019-20 year.

However, for the 18-19 and 19-20 academic year, the students identified as Spanish Learners were served with the Title III-A program federal funds.

---------------------	--------------------

**FAQ:**

*How are the poverty quartiles determined?* Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

### 1.4.8 State Subgrant Activities

This section collects data on State subgrant activities.

#### 1.4.8.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from the U.S. Department of Education (ED), normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be submitted using the MM/DD/YY format.

Example: State received SY2018-19 funds July 1, 2018, and then made these funds available to subgrantees on August 1, 2018, for SY2018-19 programs. Then the "# of days/\$\$ Distribution" is 30 days.

Date State Received Allocation	Date Funds Available to Subgrantees	# of Days/\$\$ Distribution
7/1/2018	7/1/2018	0

#### Table 1.4.8.1 Definitions:

- Date State Received Allocation** = Date the State receives the Title III allocation from ED.
- Date Funds Available to Subgrantees** = Date that Title III funds are available to approved subgrantees.
- # of Days/\$\$ Distribution** = Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.

**Comments:** The response is limited to 4,000 characters.

PRDE is a unitary system, which means that the same day we receive the grant, the funds are available for the PRDE. In the case of Puerto Rico, we don't have subgrantees for this federal program (Title III-A). Accordingly, we understand that the Date Funds were Available to Subgrantees does not apply to us. On August 27, 2018, as an Agency, the distribution of the mandatory set asides was recorded within PRDE's Financial System.

The response is limited to 8,000 characters.

PRDE is a unitary system, which means that the same day we receive the grant, the funds are available for the PRDE.
