1.2 STUDENT ACADEMIC ACHIEVEMENT AND PARTICIPATION IN STATE ASSESSMENTS

This section collects data on student academic achievement and participation in the State assessments.

Note: States are not required to report these data by the racial/ethnic groups shown in the table below; instead, they are required to report these data by the major racial and ethnic groups that align with their accountability system.

1.2.1 Academic Achievement and Participation in Mathematics Assessment

In the table below, provide information on the achievement and participation of students on the mathematics assessments required under Section 1111(b)(2) of the *ESEA* by reporting on: the number of students enrolled during the State’s testing window, the number of students who participated in the mathematics assessment, the number of students who took the mathematics assessment and received a valid score, and the number of students who scored at or above proficient. The percentage of students who participated in the assessment and the percentage of students scoring at or above proficient will be calculated automatically.

The student group “children with disabilities (*IDEA*)” includes children with disabilities, as defined under the *Individuals with Disabilities Education Act (IDEA)*, who participated in the regular assessments with or without accommodations and alternate assessments. Do not include former children with disabilities (*IDEA*). Do not include students only covered under Section 504 of the *Rehabilitation Act of 1973*.

The student group “English learners” should include recently arrived students who are identified as English Learners (ELs) and who have attended schools in the U.S. for less than 12 months. Do not include former ELs (i.e., those who exited EL status prior to the testing window within the past four years).

1.3.4 Poverty Quartile Breaks

In the table below, provide the poverty quartiles breaks used in determining high- and low-poverty schools and the poverty metric used to determine the poverty quartiles.

All schools	51.36%	27.65%

Poverty metric used	Percentage of students who qualify for free or reduced-price lunch
---------------------	--

FAQ:

How are the poverty quartiles determined? Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

Comments: The response is limited to 4,000 characters.

High poverty schools are schools with 51.36% (or above) of the students being eligible for FRL.

Low poverty schools are schools with 27.65% (or below) of the students being eligible for FRL.

If State reports zero (0) students in LEAs receiving funds under Section 3114(d) or the *ESEA* or zero (0) subgrants, explain in comment box below.

The response is limited to 8,000 characters.

The Winooski School District carried over \$8,030.14 from its unspent FY18 Immigrant allocation in the 2018-2019 school year. The SEA Title III Program was unable to make an additional FY19 Immigrant award due to the lack of available, verifiable immigrant data in that year.

Comments: The response is limited to 4,000 characters.

The VT-AOE is in the process of submitting this data file.

Table 1.4.7 Definitions:

- 1. Immigrant Students Enrolled:** Number of students who meet the definition of immigrant children and youth under Section 3201(5) of the *ESEA* and enrolled in the elementary or secondary schools in the State.
- 2. Immigrant Students in LEAs receiving funds under Section 3114(d):** Number of immigrant students enrolled in LEAs receiving funds reserved for immigrant education programs/activities under Section 3114(d) of the *ESEA*. This number should not include immigrant students who are enrolled in an LEA that receives Title III funds under Section 3114(a) of the *ESEA*, but not Section 3114(d) of the *ESEA*.
- 3. 3114(d) Subgrants:** Number of subgrants made in the State under Section 3114(d) of the *ESEA*, with funds reserved for immigrant children and youth. Do not include in the count LEAs that receive Title III English language acquisition subgrants made under Section 3114(a) of the *ESEA*, but that do not receive subgrants under Section 3114(d) of the *ESEA*, even if immigrant students are enrolled in those LEAs.

1.4.8 State Subgrant Activities

This section collects data on State subgrant activities.

1.4.8.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from the U.S. Department of Education (ED), normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be submitted using the MM/DD/YY format.

Example: State received SY2018-19 funds July 1, 2018, and then made these funds available to subgrantees on August 1, 2018, for SY2018-19 programs. Then the "# of days/\$\$ Distribution" is 30 days.

Date State Received Allocation	Date Funds Available to Subgrantees	# of Days/\$\$ Distribution
7/1/2019	7/2/2019	67

Table 1.4.8.1 Definitions:

- Date State Received Allocation** = Date the State receives the Title III allocation from ED.
- Date Funds Available to Subgrantees** = Date that Title III funds are available to approved subgrantees.
- # of Days/\$\$ Distribution** = Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.

Comments: The response is limited to 4,000 characters.

The Title III grant application is part of a larger Consolidated Federal Program (CFP) grant application process. The grant application process opens in spring. Districts are encouraged to submit their applications by June 30th, if possible. Title III subgrants can be made as soon as the SEA has approved all CFP Titles in the LEA's application.

1.4.8.2 Steps to Shorten the Distribution of Title III Funds to Subgrantees

In the comment box below, describe how your State can shorten the process of distributing Title III funds to subgrantees.

The response is limited to 8,000 characters.

The Vermont SEA has held an annual spring CFP conference to help LEA administrators understand the MTW grants management system and prepare their applications according to Federal and State requirements. Workshops and ongoing technical assistance are intended to facilitate the process and LEAs' submission of their CFP applications. The best way to shorten the process of distributing funds to subgrantees is for: (1) LEAs to submit complete and approval applications as early as possible and (2) the SEA to complete program and fiscal reviews of all Titles in the application in as time and efficient a manner as possible.

1.4.9 Title III Subgrantees

This section collects data on the performance of Title III subgrantees.

1.4.9.1 Termination of Title III Language Instruction Educational Programs

This section collects data on the termination of Title III programs or activities as required by Section 3122(b)(7) of the *ESEA*.

Termination of Title III Programs	Yes / No
Were any Title III language instruction educational programs <u>or</u> activities terminated for failure to reach program goals?	NO
If yes, provide the number of language instruction educational programs <u>or</u> activities terminated.	

Comments: The response is limited to 4,000 characters.

1.5 PERSISTENTLY DANGEROUS SCHOOLS

1.6 EDUCATION FOR HOMELESS CHILDREN AND YOUTHS PROGRAM

This section collects data on homeless children and youth and the McKinney-Vento grant program.

In the table below, provide the following information about the number of LEAs in the State who reported data on homeless children and youth and the McKinney-Vento program. The totals will be automatically calculated.

LEAs	#	# LEAs Reporting Data
LEAs without subgrants	176	60
LEAs with subgrants	59	29
Total	235	89

Comments: The response is limited to 4,000 characters.

Explanation for discrepancy between the number of LEAs with Subgrants and the number of LEAs with Subgrants reporting data: In VT the Supervisory Unions are the recipients of the McKinney-Vento subgrants. Because these funds get distributed to the some of the operating districts, the operating districts within the SU are also coded as McKinney-Vento subgrant recipient flag = MVSUBGYES. We also do this as FS170 is cross - referenced in the EDFacts system to other EDFacts files (e.g. FS175, FS178, FS179, FS118, etc.) that are reported by operating district. The fact is not all operating districts within the SU have homeless students. Also, students are not reported at the SU level so none of these entities would be in the FS118 file as having students enrolled.

1.6.1 All LEAs (with and without McKinney-Vento subgrants)

The following questions collect data on homeless children and youth in the State.

1.6.1.1 Homeless Children and Youth

In the table below, provide the number of homeless children and youth by grade level enrolled in public school at any time during the regular school year. The totals will be automatically calculated:
