1.3 TEACHERS

In the tables below, provide the number of teachers for each of the school types listed and the number of teachers who are inexperienced, emergency or provisional credentialed, or out of field. The percentages used for high- and low-poverty schools and the poverty metric used to determine those percentages are reported in the second table. Below the tables are FAQs about these data.

1.3.1 Inexperienced Teachers

In the table below, provide information on the experience of teachers by poverty quartile and level.

Populated with SCH-LEVEL FS103/DG699 and FS203/DG839

1.3.4 Poverty Quartile Breaks

In the table below, provide the poverty quartiles breaks used in determining high- and low-poverty schools and the poverty metric used to determine the poverty quartiles.

High-Poverty Schools (More than what %)	Low-Poverty Schools (Less than what %)	Poverty Metric Used
86	40	FreeReducedLunchProgram + FreeMealProgram/TotalEnrollment to get the percentage, then used what is suggested in the FAQ to determine the poverty quartiles ranking.

FAQ:How are the poverty quartiles determined?

Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

CALIFORNIA	The California Department of Education continues to provide an annual conference during which workshops are presented to LEA superintendents, district and school administrators, county offices of education, researchers, and others about programs, services, current research, requirements, and other related topics concerning the education of English learner, immigrant and migratory students. This year, Title III collaborated with other ESSA programs to provide a more comprehensive summit. These workshop sessions include examples of best practices within each of the federal programs represented in the conference. The CDE also maintains networks for the dissemination of information, guidance, research, and practices. Finally, in response to requests from educators for successful evidence-based practices to improve instruction for both English learners and multilingual students, the CDE released a new publication, Improving Education for Multilingual and English Learner Students: Research to Practice, which is available here: https://www.cde.ca.gov/sp/el/er/improvingmleeducation.asp .
