MASSACHUSETTS	Neither high nor low poverty quartile school	37706.81	3046.83	8.1
MASSACHUSETTS	Total Schools	75054.61	6761.58	9

### 1.3.4 Poverty Quartile Breaks

In the table below, provide the poverty quartiles breaks used in determining high- and low-poverty schools and the poverty metric used to determine the poverty quartiles.

High-Poverty Schools (More than what %)	Low-Poverty Schools (Less than what %)	Poverty Metric Used
52	14	% Students classified as Economically Disadvantaged. The measure is based on a student's participation in one or more of the following state-administered programs: the Supplemental Nutrition Assistance Program (SNAP); the Transitional Assistance for Families with Dependent Children (TAFDC); the Department of Children and Families' (DCF) foster care program; and MassHealth (Medicaid).

### FAQ:How are the poverty quartiles determined?

Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

Data Quality Comment
Poverty Quartile Breaks were based on two decimal places but the above chart required rounding to a whole number. Low Poverty was 14.15% or lower. High Poverty was 52.28% or higher.

MASSACHUSETTS	MA DESE has a streamlined application process for districts to apply and obtained its funds. We hold a consolidated grant review process that has significantly decreased redundancies and allow grant reviewers/liaisons to have district context across all ESSA grants. We hold various technical assistance sessions to support districts with understanding allowable and unallowable costs, program and grant application support to help reduce any confusion upfront and set them up for a successful application submission.
