FAQ:How are the poverty quartiles determined?

Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

1.4.2 LIEPs

Note: Section 3201(7) – The term ‘LIEP’ means an instruction course – (A) in which an EL is placed for the purpose of developing and attaining English proficiency, while meeting challenging State academic standards; and (B) that may make instructional use of both English and a child’s native language to enable the child to develop and attain English proficiency and may include the participation of English proficient children if such course is designed to enable all participating children to become proficient in English and a second language.

In the table below, place a check next to each type of LIEP implemented in the State, as defined under Section 3201(7), as required by Sections 3121(a)(1) and 3122(b)(1) of the ESEA.

MINNESOTA	Transitional Bilingual Education or Early-Exit Bilingual Education	77	Spanish

Explain in the comment box below if the State has any additional LIEPs that are not captured in the table above.

State	Comments
MINNESOTA	Minnesota was unable to capture all district's LIEP. A district were not able to complete the on-line survey which captures the information in the table above. The "Other" LIEP included the use of heritage language classes, learning lab, and co-teaching integrated model. Clearly, as the data above support, the majority of the districts in the state either use ESL (ELD) or Content Classes with integrated ESL support. Districts are required to conduct comprehensive needs assessment to determine the type of LIEP that would benefit their district based upon the needs of the district. The needs assessment includes reviewing staffing availability, number and grade placements of ELs, and home languages of the EL students. Over the past three years, the number of districts conducting newcomer programs has declined.
