FAQ:How are the poverty quartiles determined?

Rank order all schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.

State	Comments
NEBRASKA	The Nebraska Department of Education (NDE) continues to explore ways of shortening the number of days from the date that the state receives a grant award notification until the funds are available to subgrantees. The SEA has a consolidated grant application process for all ESEA formula grants, including Title III. The 2019 timeframe of 31 days from the allocation received to funds available for distribution is as short as it can be.
