- Do not include programs funded solely through Title I, Part A.
- Use the definitions listed below:

**o Adult Corrections:** An adult correctional institution is a facility in which persons, including persons 21 or under, are confined as a result of conviction for a criminal offense.

**o At-Risk Programs:** Programs operated (through LEAs) that target students who are at risk of academic failure, dependency adjudication, or delinquency adjudication, have a drug or alcohol problem, are pregnant or parenting, have been in contact with the juvenile justice or child welfare system in the past, are at least 1 year behind the expected age/grade level, are English learners, are gang members, have dropped out of school in the past, or have a high absenteeism rate at school.

Include any programs serving adjudicated youth (including non-secure facilities and group homes) in this category.

**o Juvenile Detention Facilities:** Detention facilities are shorter-term institutions that provide care to children who require secure custody pending court adjudication, court disposition, or execution of a court order, or care to children after commitment.

**o Neglected Programs:** An institution for neglected children and youth is a public or private residential facility, other than a foster home, that is operated primarily for the care of children who have been committed to the institution or voluntarily placed under applicable State law due to abandonment, neglect, or death of their parents or guardians.

Report only programs and facilities that received Title I, Part D, Subpart 1 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/facilities will be automatically calculated. Below the table is a FAQ about the data collected in this table.

State Program or Facility Type	# Programs or Facilities	Average Length of Stay in Days
Adult corrections	4	90
Juvenile corrections	7	207
Juvenile detention	8	27
Neglected programs	0	0
Other programs	0	0
Total	19	.

### FAQ on programs and facilities - subpart 1:

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit, for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

In the space below, describe the progress the State has made in meeting the objectives and outcomes for the Rural Low-Income School (RLIS) Program as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

**Comments**

Within North Carolina, our rural districts have been some of the most impacted by the effects of the COVID pandemic. Despite these difficulties, our districts overall have demonstrated a slight increase in Biology, Math, and Science as measured by state tests administrated by the Accountability Division at the SEA.

### 2.8.3 RLIS Technical Assistance

In the space below, describe the progress the State has made in providing technical assistance for RLIS LEA sub-grantees as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

Comments
North Carolina provides Technical Assistance (TA) on an ongoing basis through a regional support model. The state is split into eight geographical regions, each of which is assigned a dedicated staff member to provide TA. Regional meetings are held each May to discuss the application requirements for applying for and utilizing RLIS funds.

### 2.8.4 RLIS Subgrant Award Determination

Please report the method the SEA used to award grants to eligible LEAs. If the SEA used a competitive process, please describe that process and include a description of the methods and criteria the SEA used to review applications, award funds to LEAs, and how the LEAs were notified of the process. If the SEA used a formula besides one based on the number of students in average daily attendance served by eligible LEAs in the State, please describe that formula, including an explanation of how this alternative formula enables the SEA to allot grant funds in a manner that serves equal or greater concentrations of children from families with incomes below the poverty line, relative to the concentration that would be served if the SEA used a formula based on the number of students in average daily attendance served by eligible LEAs in the State.

Comments
The NC Department of Public Instruction utilizes USED's eligibility determination and formula for allotments.
