## 2.5 PREVENTION AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT RISK

This section collects data on programs and facilities that serve students who are neglected, delinquent, or at risk under Title I, Part D, and characteristics about and services provided to these students.

Throughout this section:

- Report data for the program year of July 1, 2021 through June 30, 2022.
- Count programs/facilities based on how the program was classified to ED for funding purposes.
- Do not include programs funded solely through Title I, Part A.
- Use the definitions listed below:

**o Adult Corrections:** An adult correctional institution is a facility in which persons, including persons 21 or under, are confined as a result of conviction for a criminal offense.

**o At-Risk Programs:** Programs operated (through LEAs) that target students who are at risk of academic failure, dependency adjudication, or delinquency adjudication, have a drug or alcohol problem, are pregnant or parenting, have been in contact with the juvenile justice or child welfare system in the past, are at least 1 year behind the expected age/grade level, are English learners, are gang members, have dropped out of school in the past, or have a high absenteeism rate at school.

**o Juvenile Corrections:** An institution for delinquent children and youth that is a public or private residential facility other than a foster home that is operated for the care of children and youth who have been adjudicated delinquent or in need of supervision. Include any programs serving adjudicated youth (including non-secure facilities and group homes) in this category.

**o Juvenile Detention Facilities:** Detention facilities are shorter-term institutions that provide care to children who require secure custody pending court adjudication, court disposition, or execution of a court order, or care to children after commitment.

**o Neglected Programs:** An institution for neglected children and youth is a public or private residential facility, other than a foster home, that is operated primarily for the care of children who have been committed to the institution or voluntarily placed under applicable State law due to abandonment, neglect, or death of their parents or guardians.

**o Other:** Any other programs, not defined above, that receive Title I, Part D funds and serve non-adjudicated children and youth.

### 2.5.1 State Agency Title I, Part D Programs and Facilities - Subpart 1

Report only programs and facilities that received Title I, Part D, Subpart 1 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/facilities will be automatically calculated. Below the table is a FAQ about the data collected in this table.

State Program or Facility Type	# Programs or Facilities	Average Length of Stay in Days
Adult corrections	1	55
Juvenile corrections	1	219
Juvenile detention	.	.
Neglected programs	.	.
Other programs	.	.
Total	.	.

**FAQ on programs and facilities - subpart 1:**

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit, for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

### 2.5.3.5 Academic Performance - Subpart 2

The following questions collect data on the academic performance of neglected and delinquent long-term students served by Title I, Part D, Subpart 2 in reading and mathematics.

#### 2.5.3.5.1 Academic Performance in Reading - Subpart 2

In the table below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 2, who participated in reading pre- and post-testing. Students should be reported in only one of the four change categories. Reporting pre- and post-test data for at-risk students in the table below is optional.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2021, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the table is an FAQ about the data collected in this table.

Populated with LEA-LEVEL FS125/DG629.

Performance Data(Based on Most Recent Pre Post-Test Data)	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams	S	6	55		
Long-term students with no change in grade level from the pre- to post-test exams	20	10	7		
Long-term students with improvement up to one full grade level from the pre- to post-test exams	55	82	87		
Long-term students with improvement of more than one full grade level from the pre- to post-test exams	S	8	132		
Total students pre/post-tested	82	106	281		

**FAQ on long-term:**

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2021, through June 30, 2022.

Is reporting pre/post-test data for at-risk programs required? No, reporting pre/post-test data for at-risk students is no longer required, but States have the option to continue to collect and report it within the CSPR.

### 2.5.3.5.2 Academic Performance in Mathematics - Subpart 2

In the table below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 2, who participated in mathematics pre- and post-testing. ## 2.6 STUDENT SUPPORT AND ACADEMIC ENRICHMENT GRANTS (TITLE IV, PART A)

### 2.6.1 Funds Spent Under Title IV, Part A

This section collects data on the amount of funds spent by LEAs on the three content areas under Title IV, Part A of the ESEA.

Content Area	Amount of Funds Spent
Well-Rounded	\$1,944,564
Safe and Healthy Students	\$1,924,058
Effective Use of Technology	\$302,258

#### Data Quality Comments

Amount reported is correct. The discrepancy between reported number and expected low threshold is due to LEAs using transferability and carryover due to COVID and not being able to use funds at that time.

### 2.6.2 LEAs Who Spent Funds Under Title IV, Part A

This section collects data on the number of LEAs who spent funds by the content areas under Title IV, Part A of the ESEA. For the 'Any' category, report the number of LEAs that spent funds in any of the three content areas. An LEA should be included in the count of each content area it spent funds on (i.e. an LEA may be represented in more than one content area in the table below).

Content Area	Number of LEAs Spending Funds
Well-Rounded	93
Safe and Healthy Students	64
Effective Use of Technology	40
Any Content Area	112

### 2.8.1 LEA Use of Rural Low-Income Schools Program (RLIS) (Title V, Part B, Subpart 2) Grant Funds

In the table below, provide the number of eligible LEAs that used RLIS funds during SY2020-21 for each of the listed purposes.

Purpose	# LEAs
Activities authorized under Part A of Title I	7
Activities authorized under Part A of Title II	3

#### Data Quality Comments

Only 8 LEAs received RLIS funds for SY 2021-2022. Only 3 LEAs used the funds for only one of the purposes listed above, the remaining 5 used funds for more than one purpose.

### 2.8.2 RLIS Objectives and Outcomes

In the space below, describe the progress the State has made in meeting the objectives and outcomes for the Rural Low-Income School (RLIS) Program as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

**Comments**

Idaho LEAs receiving RLIS allocations are using funds to help all students meet the State academic standards. The LEAs receiving RLIS allocations evaluate their progress towards their LEA goals as a part of the Consolidated Federal and State Grant Application (CFSGA). All activities listed in the CFSGA are intended to increase student achievement standards for all students, with additional support for specific subgroups in some LEAs. RLIS goals are aligned with our State goals. The Idaho State Department of Education (SDE) reviews and approves CFSGAs for each LEA receiving Federal funds, ensuring RLIS LEAs apply their funds to allowable use of funds. The LEAs collectively had 15 goals. They reported 13 met, and 2 not met goals for SY 2021-2022.

### 2.8.3 RLIS Technical Assistance

In the space below, describe the progress the State has made in providing technical assistance for RLIS LEA sub-grantees as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

Comments
The State Federal Programs team provides technical assistance to LEAs for completing V-B RLIS application in the Consolidated Federal and State Grant Application. This is done through the CFSGA workshop, phone calls, emails, etc. Technical assistance and networking also occur during the annual ESEA & IDEA Federal Programs Directors Meeting.

### 2.8.4 RLIS Subgrant Award Determination

Please report the method the SEA used to award grants to eligible LEAs. If the SEA used a competitive process, please describe that process and include a description of the methods and criteria the SEA used to review applications, award funds to LEAs, and how the LEAs were notified of the process. If the SEA used a formula besides one based on the number of students in average daily attendance served by eligible LEAs in the State, please describe that formula, including an explanation of how this alternative formula enables the SEA to allot grant funds in a manner that serves equal or greater concentrations of children from families with incomes below the poverty line, relative to the concentration that would be served if the SEA used a formula based on the number of students in average daily attendance served by eligible LEAs in the State.

Comments
The State uses a formula based on the number of students in average daily attendance served by eligible LEAs in the State.

## 2.8.5 RLIS State Administrative Funds

In the table below, provide information on state administrative funds.

Question	Percentage
What percentage of the RLIS grant funds were retained for State-level administration?	5
What percentage of those funds retained for State-level administration were used specifically for technical assistance?	80

### Data Quality Comments

The majority of the state set aside funds (80%) were used for technical assistance to LEAs including addressing questions about use of funds, support in creating and completing RLIS goals and evaluations, and completing their RLIS budget. The remainder of the state set aside funds were used for partial salary hours for the V-B Rural Education Coordinator. This individual's position includes Consolidated Federal and State Grant Application (CFSGA) training for LEAs, technical assistance for LEAs, RLIS CFSGA review and approval, other trainings at the state level, compiling data for the REAP Master Eligibility Spreadsheet, and other rural education LEA supports.

## 2.8.6 RLIS LEAs Awarded Funds

Please list the NCES LEA ID and name of each LEA that received RLIS funds and the amount each received.
