- Count programs/facilities based on how the program was classified to ED for funding purposes.
- Do not include programs funded solely through Title I, Part A.
- Use the definitions listed below:

**o Adult Corrections:** An adult correctional institution is a facility in which persons, including persons 21 or under, are confined as a result of conviction for a criminal offense.

**o At-Risk Programs:** Programs operated (through LEAs) that target students who are at risk of academic failure, dependency adjudication, or delinquency adjudication, have a drug or alcohol problem, are pregnant or parenting, have been in contact with the juvenile justice or child welfare system in the past, are at least 1 year behind the expected age/grade level, are English learners, are gang members, have dropped out of school in the past, or have a high absenteeism rate at school.

**o Juvenile Corrections:** An institution for delinquent children and youth that is a public or private residential facility other than a foster home that is operated for the care of children and youth who have been adjudicated delinquent or in need of supervision. Include any programs serving adjudicated youth (including non-secure facilities and group homes) in this category.

**o Juvenile Detention Facilities:** Detention facilities are shorter-term institutions that provide care to children who require secure custody pending court adjudication, court disposition, or execution of a court order, or care to children after commitment.

**o Neglected Programs:** An institution for neglected children and youth is a public or private residential facility, other than a foster home, that is operated primarily for the care of children who have been committed to the institution or voluntarily placed under applicable State law due to abandonment, neglect, or death of their parents or guardians.

**o Other:** Any other programs, not defined above, that receive Title I, Part D funds and serve non-adjudicated children and youth.

If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/facilities will be automatically calculated. Below the table is a FAQ about the data collected in this table.

State Program or Facility Type	# Programs or Facilities	Average Length of Stay in Days
Adult corrections	5	102
Juvenile corrections	31	80
Juvenile detention	0	0
Neglected programs	0	0
Other programs	0	0
Total	36	.

**FAQ on programs and facilities - subpart 1:**

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit, for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

#### 2.5.3.5.1 Academic Performance in Reading - Subpart 2

In the table below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 2, who participated in reading pre- and post-testing. Students should be reported in only one of the four change categories. Reporting pre- and post-test data for at-risk students in the table below is optional.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2021, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the table is an FAQ about the data collected in this table.

Populated with LEA-LEVEL FS125/DG629.

### 2.8.2 RLIS Objectives and Outcomes

In the space below, describe the progress the State has made in meeting the objectives and outcomes for the Rural Low-Income School (RLIS) Program as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

**Comments**

Kentucky is working to make progress on meeting the state plan's objectives by helping rural districts use federal resources effectively to improve instruction and achievement of students. Formula grants are awarded to eligible districts, and the local education agency (LEA) applies based on the comprehensive needs assessment to the state education agency (SEA). This application is a part of a consolidated application that contains multiple federal programs. That application is reviewed by a member of the SEA staff for accuracy and allowable expenses. The SEA continues to implement a technical assistance process to provide guidance to all LEAs that receive RLIS funding utilizing a quarterly cadre that includes a webinar. The purpose of this effort is to guide districts with more effectively targeting RLIS funds.

### 2.8.3 RLIS Technical Assistance

In the space below, describe the progress the State has made in providing technical assistance for RLIS LEA sub-grantees as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

Comments
<p>The Kentucky Department of Education (KDE) provides regular technical assistance to local education agencies (LEAs) through phone, e-mail, and face to face assistance. Face to face assistance occurs at trainings and meetings, as well as cooperative and regional training throughout the state. KDE also works with LEAs through the consolidated application to administer this funding to align with other federal, state, and local programs. On site monitoring also occurs during the annual state consolidated monitoring process. Additionally, KDE continues to implement a process that offers technical assistance to all districts receiving RLIS funds. KDE is providing a quarterly cadre concerning the best use of Rural Low-Income funds. Technical assistance will be provided through various methods, such as webinars, surveys, and newsletters. This process will be evaluated for continuous improvement for future implementation.</p>

### 2.8.4 RLIS Subgrant Award Determination

Please report the method the SEA used to award grants to eligible LEAs. If the SEA used a competitive process, please describe that process and include a description of the methods and criteria the SEA used to review applications, award funds to LEAs, and how the LEAs were notified of the process. If the SEA used a formula besides one based on the number of students in average daily attendance served by eligible LEAs in the State, please describe that formula, including an explanation of how this alternative formula enables the SEA to allot grant funds in a manner that serves equal or greater concentrations of children from families with incomes below the poverty line, relative to the concentration that would be served if the SEA used a formula based on the number of students in average daily attendance served by eligible LEAs in the State.

Comments
<p>Kentucky awards formula grants to qualifying districts that meet federal eligibility requirements and is calculated by multiplying each eligible district's average daily attendance by a per-pupil amount.</p>

### 2.8.5 RLIS State Administrative Funds

In the table below, provide information on state administrative funds.

Question	Percentage
What percentage of the RLIS grant funds were retained for State-level administration?	1
