2.8.2 RLIS Objectives and Outcomes

In the space below, describe the progress the State has made in meeting the objectives and outcomes for the Rural Low-Income School (RLIS) Program as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

Comments

The New York State Education Department (NYSED)'s ESSA plan objective is that Local Education Agencies (LEAs) utilize Title V, Part B funds to improve the outcomes of students in meeting the State's challenging academic standards through: 1) Improving teaching and learning in the classroom and 2) Improving equity in the classroom. In the 2021-22 school year, LEAs were required in their Consolidated Application to provide a narrative stating how the LEA funds will be used to meet one or both criteria for using these funds. All 52 RLIS recipients' applications were reviewed to determine that they were applying funds toward these objectives. LEAs were surveyed to see if they felt objectives were met for the prior year. Thirty (30) stated they met their objectives, 1 stated they exceeded their objectives and 16 stated they did not meet prior year objectives. Five (5) LEAs did not apply for funds or did not respond to the survey.

2.8.3 RLIS Technical Assistance

In the space below, describe the progress the State has made in providing technical assistance for RLIS LEA sub-grantees as described in the State's most current Consolidated State Application. If providing quantitative data along with your narrative, please ensure all data is converted to text format.

Comments
The SEA provides technical assistance for RLIS LEA sub-grantees through a few different methods. The SEA has 1 FTE dedicated staff to provide technical assistance as needed to RLIS recipients. This staff person is accessible via phone/email for LEA on-demand requests. Other ESSA staff in the SEA are updated through team meetings on issues that may come up for RLIS LEAs so that they may provide technical assistance as "subject matter experts" on an as-needed basis. The SEA also funds through Title V RLIS various experts in the field to provide technical assistance in various settings related to the different uses of funds for RLIS. The Office of Accountability also sends out periodic newsletters to the field providing technical assistance to LEAs on various issues relating to ESSA programs, including RLIS. LEAs can also visit the SEA's dedicated REAP webpage, which contains various resources and information on the REAP programs including RLIS.

2.8.4 RLIS Subgrant Award Determination

Please report the method the SEA used to award grants to eligible LEAs. If the SEA used a competitive process, please describe that process and include a description of the methods and criteria the SEA used to review applications, award funds to LEAs, and how the LEAs were notified of the process. If the SEA used a formula besides one based on the number of students in average daily attendance served by eligible LEAs in the State, please describe that formula, including an explanation of how this alternative formula enables the SEA to allot grant funds in a manner that serves equal or greater concentrations of children from families with incomes below the poverty line, relative to the concentration that would be served if the SEA used a formula based on the number of students in average daily attendance served by eligible LEAs in the State.

Comments
The New York State Education Department used an allocation method derived from the daily average attendance of eligible LEAs for 2021-22 to determine RLIS award amounts.

2.8.5 RLIS State Administrative Funds

In the table below, provide information on state administrative funds.

Question	Percentage
What percentage of the RLIS grant funds were retained for State-level administration?	5
What percentage of those funds retained for State-level administration were used specifically for technical assistance?	100
